

INGENIO

Premium Tablet-Arm

INGENIO Premium Tablet-Arm

The **Premium Tablet-Arm** by INGENIO is the most functional and stylized product on the market. Designed to be both compact and lightweight, it acts as a plug-in Tablet-Arm for a variety of Portable Electronic Devices (PED's). Modern and elegant in construction, it visually complements and enhances the interior of any Business Aircraft. It is purposefully engineered to meet the stringent technical requirements of the aviation industry.

- The **Premium Tablet-Arm** provides for an extended arm plug and play concept, as it is easily installed in the cabin by way of an attachment point referred to as the INGENIO Cabin Receptacle. Due to its small physical size, this Cabin Receptacle can be installed on a wide range of fixed points, i.e. club seats, conference area, divans, base receptacles, cup holders, narrow side ledges, etc.
- The **Premium Tablet-Arm** provides a safe and elegant solution for integrated USB charging & data pass through, with no visible wires. The arm is easily removable for both takeoff and landing.
- The **Premium Tablet-Arm** extended ergonomic design allows for optimal passenger PED viewing while being seated in either an up-right or reclined position. Its robust design eliminates vibrations, ensure a secure and firm hold, allowing a comfortable and gratifying user experience.
- The INGENIO Tablet Holders come in either Universal or Custom format. These Tablet Holders provide a dynamic fit and form for securing a wide variety of PED's. The benefits are: allows viewing in both portrait and landscape modes; tightly secures PED to eliminate vibration; and is interchangeable amongst all INGENIO Plug-In products. The PED can be removed independently by either rotating a simple un-locking lever on the rear of the Tablet Holder, or by detaching the Tablet Holder from the Premium Tablet-Arm with the help of an instant release mechanism.
- All these features make the **Premium Tablet-Arm** a unique product that distinguishes it from the competition.
