

INGENIO iPad Tablet Holders

INGENIO iPad Tablet Holders

The **INGENIO iPad Tablet Holders** provide a fully personalized experience; This product is meant to secure and conveniently hold the Tablet products of various sizes and generations. This is an ideal product for an Apple™ Tablet owner that wishes to use a tailored solution for his / her favorite carry-on Tablet, providing an optimum experience.

- The unique and elegant **iPad Tablet Holders** are fully adjustable, robust and lightweight, tailored to be effectively used within the aircraft cabin or cockpit.
- Their self-locking cam mechanism and multi-located protection rubber pads permit to both easily secure and protect the Apple™ Tablet while inserted and finishing the set process by a simple lever rotation. Each iPad solution has its associated mating connector and internal wiring integrated to eliminate any need for the tablet USB charging cable.
- The **iPad Tablet Holders** provide USB power and data pass through, by simply docking into any INGENIO Cabin Tablet-Arm or Cockpit Tablet-Mount / Tripod-Mount products, connected to either INGENIO USB Charger or USB Extender Plus product.
- The **iPad Tablet Holders** are manufactured to be compatible with the latest Apple™ iPad™ product generations.
- All these features make the **INGENIO iPad Tablet Holders** distinguish themselves from the competition.
